COLLEGE COMMUNITY CONGREGATIONAL CHURCH **GOES “GREEN” WITH EXTENSIVE SOLAR ELECTRICAL SYSTEM**

August 8, 2007

Fresno, CA — The members of College Community Congregational Church have unanimously voted to install a large scale solar electrical system on the roof of their sanctuary, located at 5550 North Fresno Street, between Barstow and Bullard Avenues.

In an ongoing effort to support practices and projects that help to conserve our precious resources, the Congregation has committed over \$200,000 to the purchase and installation of the system, less rebates from PG&E. This very powerful system, installed by Unlimited Energy of Fresno, has a bi-directional meter, which allows the Church to be credited back by PG&E for the power that is generated and used.

College Community Congregational Church is affiliated with the United Church of Christ, an Open and Affirming Church. Starting Sunday, September 9, 2007, we will be offering a second Contemporary worship service at 11:00AM. A Traditional Worship Service is offered at 9:30AM. For more information call the Church office at (559) 435-2690.
